

Rhondda Cynon Taf

'focus solutions, exceptional results'

"With their knowledge and expertise FGI added significant value to our PRINCE2® training that could not have been achieved through self study. Our staff benefited from the skills and experience of the trainers who could relate directly to situations in the workplace. Based on the service we received I would not hesitate to recommend FGI as a training partner".

Suzanne Thomas – Management Development Advisor, Rhondda Cynon Taf County Borough Council

As a forward thinking Borough Council with a desire for continual improvement, Rhondda Cynon Taf sought to develop numerous managers to the PRINCE2 entry level foundation. After a rigorous evaluation process of vetting external providers against the option of self study, it was decided to outsource the training. With over 200 managers in the target group, Rhondda needed a provider that not only had the capacity to deliver, but had quality trainers that could bring fresh ideas and experience into the Council. FGI now provide the Council with a quality, tailored solution.
